

LIVING WATERS MISSION - 2017

San Lucas Toliman, Guatemala

What a life giving, life changing experience! The Mission Team led by Mark Turner, in partnership with Tom Sumiec, Jim Paulk, Susan Farooq, Sue Randall, and all of you, have impacted so many lives now and in the future. This mission was new to our church, but we embraced the training process, preparation, installation and celebration with the members of Iglesia Pentecostal Evangelio Mundial Extendido as we drank the clean, filtered water together, Es muy buena! (It is good!)

We thank you for your prayers and financial support of this team and mission, providing us an opportunity to serve, Here I am Lord. The team shared their experience with the congregation by preparing an appreciation luncheon May 7th after worship.

The mission trip has ended, but the mission continues. We will support the operation of this Living Waters system for three years, while we continue to seek God’s guidance to support the implementation of additional Living Waters projects in Guatemala. Stay tuned!
